

Revision checklist

24 The role of government

As you revise each topic in Chapter 24, complete this checklist. If, after testing yourself, you find that you don't know a particular topic very well, or only some of it well, go back and revisit that topic.

Concept/topic	Revision		Knowledge check		
	Revised	Tested	I know this well	I know some of this	I don't know this
The principal role of the government is to improve the general welfare of its people.					
The government collects taxes in order to fund its expenditure on essential services.					
The government operates at three levels: local, national and international.					
The national government may make decisions on fiscal policies, monetary policies and supply-side policies in order to achieve its macroeconomic aims.					
It also uses policy measures, such as the Paris Agreement, to protect the environment.
